

# Personalised Active Maintenance Plans at Sherwood Dental

Your Active Maintenance Plan  
Date: \_\_\_\_\_  
Name: \_\_\_\_\_  
Next Active Maintenance in \_\_\_ months  
Review: \_\_\_\_\_

A plan created WITH you  
for your LONG TERM health

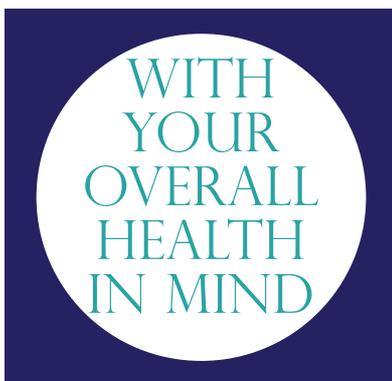

## Medical researchers are finding concerning links between gum disease and other serious diseases

At Sherwood Dental, we aim to have the highest standards of patient care and keep abreast of the latest in oral health research.

We take gum health seriously and see patient education as one of our responsibilities as health care providers.

## Twice yearly check ups suit most of us but... 6 monthly visits are not for everyone!

We believe that **no two patients are alike**; so we are teaming up with you to create a plan that addresses your particular oral health needs.

Dr Craig Duval explains why Sherwood Dental believes in a personalised oral health plan.

1:27min

ALL of our regular patients at  
Sherwood Dental  
are now receiving a personalised  
**ACTIVE MAINTENANCE PLAN**  
which is reviewed regularly.

Your recommended regular maintenance appointments are tailored according to your needs.

A 6 month interval is often recommended, but many patients' have their appointments spaced at **longer or shorter** intervals depending on their risk factors, current concerns and medical history.

The **Active Maintenance Plan** also includes details of any areas of FOCUS, sets goals and specifies particular areas to REVIEW at the next visit.

- If you are concerned that you may have some risk factors associated with gum disease;

Or

- If you would like to have an assessment and an active maintenance plan to specifically address your particular needs with a long term health focus;

please call our friendly team for an  
appointment or visit [sherwooddental.com.au](http://sherwooddental.com.au)
